EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the attorney Michael E. Carroll, Jr. on Tuesday, March 16, 2004.

The application has been amended as follows: Withdrawn claims 57-89 are cancelled.

2. The following is an examiner's statement of reasons for allowance:

For claim 1, in combination with all the limitations recited in the independent claim, all the prior arts do not show a fiber optic cable comprising at least one preshrunk binder thread comprising an air entangled, textured, continuous multi-filament thread having no more than 25 twists per inch.

For claim 21, in combination with all the limitations recited in the independent claim, all the prior arts do not show a fiber optic cable comprising at least one binder thread having a silicone wax emulsion finish, which allows faster line speeds with less down time during manufacturing of the bundle of optical fibers because the finish allows the binder thread to easily slide through the eyelets of the stitching needles and relative to another binder thread.

For claim 41, in combination with all the limitations recited in the independent claim, all the prior arts do not show a fiber optic cable comprising at least one binder thread encircling the plurality of optical fibers with pitch between 10 mm and 70 mm to maintain the plurality of optical fiber in the bundle and the at least one binder thread comprising an air entangled,

textured, continuous multi-filament thread having no more than 25 twists per inch, a TEX number between 18 and 60 and a denier between 150 and 1000. Also, the at least one binder thread includes a finish that is inert with respect to those components of the fiber optic cable with which the at least one binder thread comes into contact.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
